December Field Trip a Big Hit

The December field trip was a step back in time to an earlier era of colonial inns and locally produced spirits. Mountain Laurel Spirits then provided a wonderful in-depth tour of the value-added process of distilling a classic rye whiskey from grains grown in Pennsylvania.

MEMBER UPDATES

PSPA is a Proud Supporter of CAST

Philadelphia Society for Promoting Agriculture is a proud supporter of CAST, The Science Source for Food, Agriculture and Environmental Issues. CAST, through its network of experts, assembles, interprets, and communicates credible, balanced, science-based information to policymakers, the media, the private sector, and the public. PSPA will be providing its members links to recent articles, news and publication in our monthly newsletter.

How to Use the PSPA Library Online

Last year the Historical and Library Committee worked on some reorganization of the online access to the PSPA Library and set-up some clear directions for use. On www.pspaonline.org's website, click "Resources," then "[Library and Archive](#)." You will see a collection of options. Click "[How to Search the Penn Libraries Online Catalog](#)" and the instructions for use will come up. If you wish to learn more about the collections, on the website, click "Resources," then "Library and Archive," then "[Introduction](#)."

Wishing You the Happiest of Holiday Seasons.

At this season of the year we think of gifts and the plentiful generosity of Heaven. Agriculture is the very earthly representation of providential abundance and reminds us that all good gifts come from above. May you and yours experience the love of the season, the good gifts from above and the blessings of a healthy and prosperous New Year. Best wishes from the Philadelphia Society for Promoting Agriculture!

"Agriculture is the greatest and fundamentally the most important of our industries. The cities are but the branches of the tree of national life, the roots of which go deeply into the land. We all flourish or decline with the farmer." *BERNARD BARUCH, attributed, American Agriculture: A Brief History*
